REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In regard to claim 10, the prior art of record does not disclose a method to attract termites, comprising providing an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof including haloalkanes and alkylcarbonates; wherein a concentration of said at least one gas is emitted from said openings, wherein said concentration is approximately at least 0.2% by volume of an ambient atmosphere.

In regard to claim 25, the prior art of record does not disclose a termite trap, comprising an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein said emitting source is provided in said enclosure, a concentration of said at least one gas is emitted from said openings; wherein said concentration is at least about 0.2% by volume of air encountered by termites.

In regard to claim 45, the prior art of record does not disclose a termite trap, comprising means for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein said means for emitting is provided within said enclosure, a concentration of said at least one gas is emitted from said openings; wherein said concentration is at least about 0.2% by volume of air encountered by termites, and said concentration is less than approximately 5% by volume of the air;

In regard to claim 46, the prior art of record does not disclose a method for attracting termites, comprising providing, in an enclosure having an interior for containing an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein with said emitting source in said enclosure, and at least

most of said openings below ground, a concentration of said at least one gas is emitted from said openings below the ground; wherein said concentration is approximately at least four times a concentration of said at least one gas in an ambient atmosphere above the ground substantially at the location, and said concentration is less than approximately twenty-five times the concentration of said at least one gas in an ambient atmosphere above the ground substantially at the location.

In regard to claim 99, the prior art of record does not disclose a method to attract termites, comprising providing an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein with said emitting source in said enclosure, a concentration of said at least one gas is emitted from said openings; wherein said concentration is approximately at least 0.2% by volume of air, and said concentration is less than an amount that is lethal to the termites.

In regard to claim 117, the prior art of record does not disclose a method to attract termites, comprising providing an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein with said emitting source in said enclosure; wherein said concentration is approximately at least 0.2% by volume of air, and said concentration is less than approximately 5% by volume of the air.

In regard to claim 134, the prior art of record does not disclose a termite trap, comprising an emitting source for emitting at least one gas of: (i) CO₂, and (ii) one or more mimics thereof; wherein said emitting source is provided in said enclosure, a concentration of said at least one gas is emitted from said openings; wherein said

concentration is at least about 0.2% by volume of air encountered by termites, and said concentration is less than an amount that is physiologically detrimental to the termites.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darren W. Ark whose telephone number is (703) 305-3733. The examiner can normally be reached on M-Th, 8:00am-6:30pm.
